HOUSE OF LIFE  
HEALING CONFERENCE

## AIM OF THE CONFERENCE

The first House of Life Healing Conference “Abydos Holy City of Ancient Egypt” has the aim to combine Science – Healing Knowledge and Art together, with the intention to bring a deeper awareness about how these three fields are inseparable connected to each other and how the Ancient Egyptians expressed this in their daily lives.

The ancient Egyptians experienced their world as one. Their daily life was connected with nature. The nature was connected to the natural forces they call Neturu; in modern words, the Gods and the Goddesses of ancient Egypt. Nowadays we are calling the way how the ancient Egyptians were connected with nature, holistic.

Studying the pantheon of the Egyptian Neturu, their nature, their language, the hieroglyphs, the temples and their ritual scenes, and studying the daily life of our ancestors, will keep and bring a knowledge alive of a civilization that had such an incredible historical influence on the humanity on Earth, thousands of years back in our history. Until today still many people on Earth are touched by the knowledge of the ancient Egyptians.

# HOUSE OF LIFE HEALING CONFERENCE

We are honored to inform you that during the conference the scientist and Egyptologist Huub Pragt from the Netherlands – scientist and archeologist Jim Westerman from the United States - the American Khemitologist, Researcher, Speaker, Explorer, Artist, and Spiritual & Intuitive Life Counselor and co-director of the Khemit School of Ancient Mysticism Patricia Awyan and the Egyptian archeologist Mahmoud Amer Elgendy, archeologist at Minister of Antiquities Scientific office in Cairo, will support the conference by their inspiring lectures.

We are honored to cooperate during the conference, in workshops and presentations, with the Egyptian Bio Magnetic Touch Healer Raba Awyan, daughter of the Egyptian wisdom keeper Abd'el Hakim Awyan, the so gifted Artist and painter Brian Flynn from England who will take you with him inside his visions of art and his deep understanding of the ancient ancestors and the Amduat, the Egyptian wisdom keeper Horus from Abydos who received a part of his knowledge from the remarkable woman Omm Sety and on whose ideas the modern House of Life is created, and the Dutch music therapist, inspirator, creator and sound healer Yvon Taken (Aset) who is together with Horus from Abydos the founder of the current House of Life at Abydos.

We are honored that the President of the University of Sohag, Professor Ahmed Aziz Abdel Moniem, is supporting the idea of the conference.
